

# Ready to Work. Ready to Go.

Your Equipment Serviced as Needed

## Enhance Your Safety

Regular maintenance not only ensures your equipment functions reliably, but also minimizes the risk of incidents and breakdowns.

## Increased Operational Efficiency

Planning for annual maintenance allows you to allocate resources more effectively and helps keep your business running smoothly.

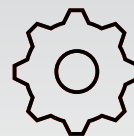

## Avoid Costly Downtime

Unplanned equipment repairs can result in lengthy lead times, causing costly disruptions to your business operations.

## Original Equipment Manufacturer Service

Keep your equipment running at its best with original parts and expert service.

## Extend Asset Lifespan

Prevent premature wear and tear on equipment by identifying issues before they escalate into failures.

**Maintenance, Repair and Overhaul Program:** customized plan designed to fit your equipment and needs incorporating TDW's preventive maintenance recommendations.

**Maintenance Contract Agreement:** TDW-managed preventive maintenance ensuring optimal equipment performance and predictable budgeting along with the ability to track customer equipment.

**Emergency Pipeline Repair Systems:** a strategic solution for maintaining and positioning your assets for swift deployment and quicker return to operation.

**Cutter Service:** reconditioning of cutter to OEM standards with rapid turn-around times.

**Mobile Maintenance:** onsite evaluation and maintenance service for enhanced customer satisfaction.
